

KUSHAGRA PANDEY

BACKEND DEVELOPER

📞 7453859107 ✉ iamkushagra15@gmail.com 🔗 linkedin.com/in/kushagra1508/ 🌐 Portfolio 📍 Noida, UP

SUMMARY

Dedicated backend developer skilled in PHP and Laravel, with additional experience in Node.js. I craft clean, efficient code and thrive in collaborative environments. A fast learner, I am continually expanding my backend development expertise to deliver high-quality applications.

EXPERIENCE

Designoweb Technologies (SDE-I)

Sep 2023 – Present

Backend Developer

Noida, UP

- Engineered and enhanced PHP-Laravel applications, achieving a 30% increase in data retrieval efficiency by optimizing database queries, reducing average response time from 300ms to 210ms.
- Developed and integrated RESTful APIs, facilitating seamless interactions between front-end and back-end systems, effectively handling over 250 requests per second with a 99.9% uptime.
- Administered MySQL databases for data integrity and security, leveraging Laravel Query Builder for optimized database interactions, resulting in a 40% reduction in query execution time.
- Collaborated with front-end teams to refine application performance, leading to a 25% increase in user engagement as measured by session duration.

PROJECTS

GPX | <https://plan.roadtriptribes.com/>

- Constructed and optimized RESTful APIs for a road trip planning application, reducing data retrieval times by 20% and improving user satisfaction scores by 15%.
- Incorporated third-party services, such as mapping and weather APIs, resulting in a 30% increase in user interaction with application features.
- Established secure authentication mechanisms, ensuring reliable access to user data, achieving a security compliance rating of 95%.

Hollywood Hair CRM | <https://hollywoodhair.pl/>

- Developed a comprehensive platform for managing businesses, employees, and clients, which streamlined operational processes and decreased administrative overhead by 40%.
- Streamlined scheduling processes, increasing user satisfaction ratings from 75% to 90% over a six-month period.
- Implemented analytics features, delivering insights that led to a 20% increase in customer retention.
- Designed a user-centric interface for clients and staff, enhancing usability metrics by 30%.
- Constructed a robust admin panel, facilitating the management of over 200 active salon operations.

Metaval - Maintenance | <https://metaval.com/in/>

- Created a machine parts sales platform that boosted inventory turnover rates by 25% within the first quarter of launch.
- Facilitated a user-friendly ordering system, enhancing the customer experience and leading to a 15% increase in repeat purchases.
- Introduced features that increased online visibility, leading to a 50% increase in website traffic and a 20% increase in conversion rates.
- Guaranteed consistent project infrastructure operations utilizing PHP and Laravel, achieving a project delivery rate of 100% on time.
